Subject: RE: Red Hill AOC - Destructive testing

Erwin,

That is correct. We will be pulling coupons the 18 - 22 June and intend to make them available for viewing on Monday, 25 June at one of our warehouses on the Joint Base. I'll provide more detail as to exact location, time, base access, etc, upon my return next week.

Also, for planning purposes, I believe you are aware our next GWMWG session is planned for all day on 7 June. Additionally, in the morning of 6 June, we intend to hold a meeting with all SME's to discuss:

- (1) EV TUA Tech Memo Update
 - Framework of EV Technical Memorandum
 - Monitored natural attenuation
 - Hypothetical Conservative Scenario Evaluations: Low- and High-End Scenarios Assuming Hypothetical LNAPL Releases Impact Groundwater
 - (2) Westbay System for Monitoring Well Installations
 - (3) AOC Update (about a 15 min update with Q&A following) primarily addressing.
 - Section 3 TUA status
 - Section 4 Release Detection
 - Section 5 Destructive Testing
- Not intended to be a highly technical discussion, but a project status update.

v/r
Mark

Mark,

Omer informed me by phone today that the Navy is planning to cut out 10 coupons around the June 20 or 25 timeframe and allow SMEs the opportunity to view all 10 coupons at Joint Base Pearl Harbor. Do you have more details that you can share on the removal, viewing the coupons and base access. Our consultants need to make travel arrangements and any advance notice you can provide is very much appreciated and helps us get the lowest airfares. I understand you are currently on vacation. I look forward to hearing from you after you return to the office. Thanks.

Erwin
